Project duration: one year (2007)

Total Project Cost: 38,312.50 Ethiopian (4,403.73 USD)

Achievement

As it has been described in the project document, the 2006 Ethiopian summer (rainy season) put a gloomy and heartbreaking memory of every citizen. The catastrophe was so immense that about 600 people died and countless have been affected by the disaster and many more have been displaced.

To support and rehabilitate the flood stricken people with the initiative of the Ethiopian government without exaggeration the whole world has responded for the call of emergency.

HORCO Canada is among the first that responded for the call. And has played great role in rehabilitating 250 students who are affected by the incidence

Amhara administrative region is one of the regions that have been stricken by the flood of this year rainy season, particularly the region's northern part. In this regard we have focused on one of the flood stricken area which is located in Amhara regions North Shoa zone Tarmaber Wereda particularly rural Kebles of Yezaba woine and shotelamba where most residents displaced because of flood and land slid occurred in this rainy season. Based on the information released from the wereda public relation office, a team of HORCO staff visited stricken areas and noticed that a lot of families have been displaced. The situation is very dreadful especially for elders and children .About 250 children have nearly to discontinue their education of this academic year. Meanwhile, as the mission of HORCO and the emergency call of the wereda (district) we have done our part particularly for the school children to seek ways and means that they attend schools of this academic year and we are successful that the students attended their education properly, hence HORCO Canada ought to be appreciated for its unprecedented effort to support the project.

The following are items provided to children

Exercises Books for 250 students	12 E-Book/Student
Pens for 250 Students	5 pens/student
Pencils for 250 student	5 pencils/student

Letter of Appreciation

Ato Getachew Yemane,
Executive Director of HORCO-Ethiopia
P.o. Box 14225 Addis Ababa, Ethiopia

Dear Ato Getachew,

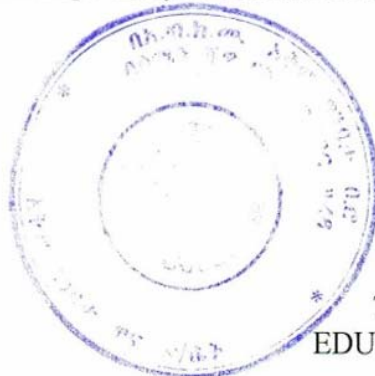

On behalf of Tarmaber Werda Education office I wanted to give you this visual token of my appreciation for the contribution that you made to our community since 2002.

You are to be highly appreciated for the way that you handled the community and your enthusiasm and ability to motivate the community have resulted in a significant increase in output and effectiveness of the projects that has been implemented so far by your organization in our wereda collaborating with our office and other sector offices particularly the project intended to rehabilitate the flood stricken kebeles of 250 children enabling them continue their education in this academic year. The educational materials and uniforms provided for these children have been a great asset that gave them strength to endure the problems.

I am confident enough to say that applying your rich experience in development endeavor you could accomplish same projects effectively for the benefit of your target groups.

As a development partner, I would like to express my appreciation on behalf of my organization for your effort and commitment for the growth of the society and once again I happily commend you for the fine approach in which you have employed for the benefit of the community and I hope that you continue in a better manner.

I remain,
Sincerely Yours.

HABTAMU BAYE

TARMABER WORDA
EDUCATION VICE HEAD OFFICER

Project outcome

Accomplishing this project a significant outcome has been achieved. The displaced family rehabilitated and all of their children successfully finished the academic year.

By now most of the students are attending their education at their local area and some are still attending this academic year where they are displaced with the support they gained last year.

The project imposed positive impact on the CBO, Government organizations and the community as whole that they have learnt to coordinate efforts in time of difficulties and harmonize to increase the readiness to bring sustainable development among the community.
